

## Field Trip to Statue of Liberty and Ellis Island

The fifth grade students of the Excellent School will be taking a day trip to New York City. They have been learning about Immigration and this field trip will culminate the unit. All the students have worked hard on research and learning. As part of the trip we will be visiting Ellis Island was a major immigrant check-in point for the eastern United States. Millions of immigrants spent much time here after the long voyage across the Atlantic Ocean. The students will be able to experience first hand of what the immigrants first experienced after they landed in America. As an added attraction we will be visiting the Statue of Liberty. After the immigrants had spent many long days on their voyage the Statue of Liberty was the first thing to welcome them to their new home. This field trip will be an all day learning event for the students.
